

# Documentation

Pages here should be assumed to pertain to the **latest release** (currently 3.7).  
Older documentation versions: [eagle-i 2.x](#) and [eagle-i 1.8](#)

*This documentation is a work in progress. We are grateful to the many people who have contributed to improving it. Please keep your comments coming.*

**What is an eagle-i Node?**

**Installation and Administration**

**Data Ingest and Data Management**

**Release Notes**

**Developer guides**

**Integration with Profiles RNS:** this page describes the eagle-i API for displaying resource information in the Profiles RNS application

## How are we doing?

Is there anything that could be clearer in our documentation? We welcome your [questions and feedback](#).
