

SHRINE 3.3.2 Upgrade Chapter 10 - Try the New Features

After installing and configuring SHRINE, you can verify the installation by navigating to each application's login page and signing in.

- **Clear the browser cache**
- Navigate to the SHRINE Webclient - the url should be in the form of https://your_shrine_url:6443/shrine-api/shrine-webclient/ . This will be the application you use most often. Log in, construct, and run a query. Do this to test that the term index files are correct, and to test out the full flow through the system.

The screenshot shows the login interface for the ENACT Network. At the top, there is a blue header bar with the ENACT logo on the left and the text "The ENACT Network" on the right. Below the header, the page is mostly white. In the center, there is a "Sign in" heading. Underneath, there are two input fields: "Username" and "Password". The "Username" field has a small cursor icon. Below these fields is a blue button labeled "SIGN IN".
