SHRINE 4.2.0 Appendix A.10 - Using SSO-Enabled Shrine

The following three URLs should be accessible without needing to provide a password.

Your metadata:

```
https://<your host>/sp-metadata.xml
```

Shibboleth's details on the current SSO status:

```
https://<your host>/Shibboleth.sso/Status
```

Shibboleths's details on the current SSO session:

```
https://<your host>/Shibboleth.sso/Session
```

SHRINE application: This URL is password-protected by Shibboleth. You will be redirected to the idP's login form; and upon successful login, back to the shrine application.

```
https://<your host>/shrine-api/shrine-webclient
```
