

net.shrine.adapter.dao.squeryl.BreakdownFailure

Summary

Breakdown results are not available from this adapter.

Explanation

This is could be caused by one of the following:

1. a database schema problem at the adapter
2. a problem with the breakdown types specified in shrine.conf.

The breakdowns specified in shrine.conf and the breakdowns present in i2b2 should match each other.

Resolution

If you are a user and believe this is an accidental error, contact your site administrator to resolve the issue.
