net.shrine.steward.email.CouldNotSendAuditEmail

Summary

The DSA's subsystem to email audit requests could not send an email.

Explanation

When the DSA attempted to send an email it encountered a problem. The data steward will not receive audit emails.

Resolution

If you are the adapter admin, examine the details to help determine what is wrong. Frequently this problem will be caused by problems in the operating system and network that prevent the email from being sent, or problems around the sender or recipient of the email.
