

Documentation

Pages here should be assumed to pertain to the **latest release** (currently 3.7).
Older documentation versions: [eagle-i 2.x](#) and [eagle-i 1.8](#)

This documentation is a work in progress. We are grateful to the many people who have contributed to improving it. Please keep your comments coming.

[What is an eagle-i Node?](#)

[Installation and Administration](#)

[Data Ingest and Data Management](#)

[Release Notes](#)

[Developer guides](#)

[Integration with Profiles RNS](#): this page describes the eagle-i API for displaying resource information in the Profiles RNS application

How are we doing?

Is there anything that could be clearer in our documentation? We welcome your [questions and feedback](#).
