## **Documentation**

Pages here should be assumed to pertain to the **latest release** (currently 3.7). Older documentation versions: eagle-i 2.x and eagle-i 1.8

This documentation is a work in progress. We are grateful to the many people who have contributed to improving it. Please keep your comments coming.

What is an eagle-i Node?

**Installation and Administration** 

**Data Ingest and Data Management** 

**Release Notes** 

**Developer guides** 

Integration with Profiles RNS: this page describes the eagle-i API for displaying resource information in the Profiles RNS application

## How are we doing?

Is there anything that could be clearer in our documentation? We welcome your questions and feedback.
