# **ACT Network "Site Data Details" Configuration**

The configurations detailed on this page is only for nodes participating in the ACT Production network and after upgrading to SHRINE 3.0

## **OVERVIEW**

ന

By following these steps you are adding a link to a Google Sheet in each of the web clients available in SHRINE 3.0:

- Legacy Web Client: Change the default "Network Help" link in the upper right of the web client to read "Site Data Details"
- New Web Client: Adding a "Site Data Details" link to the user profile menu, which links to the same Google Sheet.

The destination for these links is: https://docs.google.com/spreadsheets/d/16Z23xRbeyvcnM\_BEtecgMQDFCL0BOTUDZiZLfkdmV-0/edit#gid=0

## New Web Client: Adding "Site Data Details" to User Profile Menu

### DEFAULT CONDITIONS

The User Profile menu seen below comes with two default links "Application Help" and "Network Help".

shrine shrine-webclient-qa-node01.catalyst.harvard.edu
Application Help
Network Help
SIGN OUT
3.0.0-RC2 (31f83bcd1b6) built on 08/21/2020

#### PROCEDURE

In the webclient section of shrine.conf, add a helpLinks section with a "site name" : "site url" name value pair. In the example below, a link with the title "Site Data Details" will be added as a help link and it will open the google sheet link provided when clicked.

```
webclient {
   domain = "shrine-webclient-dev-node01.catalyst.harvard.edu"
   name = "SHRINE"
   nextStepsUrl = "https://www.actnetwork.us/national"
   urlCellPM = "http://shrine-webclient-dev-node01-i2b2.catalyst.harvard.edu:9090/i2b2/services/PMService/"
   siteAdminEmail = "isha_test@goo.com"
   usernameLabel = "isha_test"
   passwordLabel = "isha_test"
   queryFlaggingInstructions = "isha_test"
    flaggingIconInstructions = "isha's test flagging"
    flaggingPlaceholderText = "isha's sample message"
   helpLinks = {
       "Site Data Details": "https://docs.google.com/spreadsheets/d/16Z23xRbeyvcnM_BEtecgMQDFCL0BOTUDZiZLfkdmV-
0/edit#gid=0"
   }
}
```

### VALIDATION

After restarting tomcat, the new "Site Data Details" link will be displayed in the User Profile menu:

S VIEW	RESU	LTS	NEXT STE			
De	efine	Inclu	ision and	shrine		
ts Ow	ith	0 witl	hout			
here to define	the fir	st inclu	sion or exclu:	Site Data Details		
				Application Help		
				Network Help		
				SIGN OUT

		Se	arch ACT	Network		
r create one	*+	En	ter or autoger	count patients		

## Legacy Web Client: Changing "Network Help" to "Site Data Details"

### DEFAULT CONDITIONS

The Legacy web client has a Network Help link in the upper right by default. We will change that text and link destination..

SHRINE	Project: ACT Ontology	User: SHRINE User	Find Patients   Message Log   Help Network Help ] Logout
Navigate Terms Find Terms	🚯 💟 🖉	ol	0.2
ACT Demographics	Query Nan Temporal O	ne: Constraint:	Treat all groups independently

## PROCEDURE

Click this link: index.html to download a new index.html with the updated Site Data Details link.

Use it to replace the existing index.html file located at: /opt/shrine/tomcat/webapps/shrine-api/shrine-webclient-legacy/index.html

In the legacy web client, you should see the Site Data Details link in the upper right.

Find Patients   Message Log   Help   Site Data Details     Logout
