

SHRINE 3.0.0 Chapter 14 - Verifying SHRINE Operation

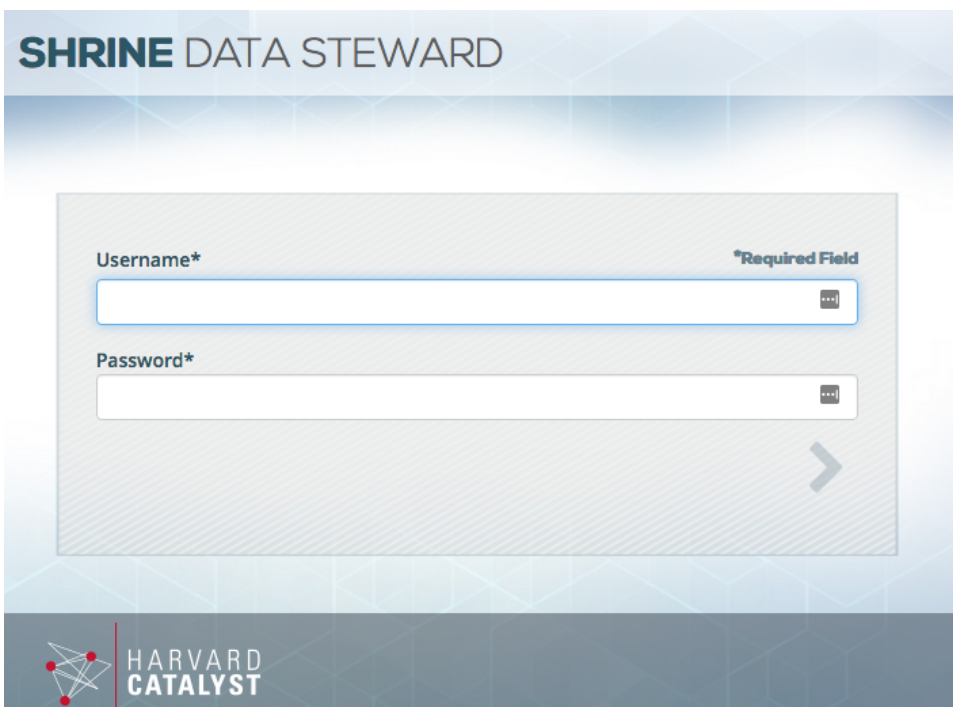

After installing and configuring SHRINE, you can verify the installation by navigating to each application's login page and signing in.

- The SHRINE Webclient - the url should be in the form of https://your_shrine_url:6443/shrine-api/shrine-webclient/ . This will be the application you use most often. Log in, construct, and run a query. Do this to test that the term index files are correct, and to test out the full flow through the system.

The screenshot shows the login page for 'The ACT Network', which is powered by the NCATS CTSA Program. The page has a blue header with the ACT logo. The main content area is white and contains a 'Sign in' section. This section includes a 'Username' input field, a 'Password' input field, and a blue 'SIGN IN' button. Below the button, there is a link that says 'Switch to the [Legacy SHRINE Webclient](#)'.

- The SHRINE Data Steward - the url should be in the form of https://your_shrine_url:6443/shrine-api/shrine-steward/ . Log in as the data steward to observe what your researchers are doing.

The screenshot shows the login page for 'SHRINE DATA STEWARD'. The page has a light blue background with a geometric pattern. The title 'SHRINE DATA STEWARD' is at the top. Below the title is a login form with a grey background. The form has two input fields: 'Username*' and 'Password*'. Both fields are marked as '*Required Field'. There are small icons next to each input field. Below the input fields is a large grey arrow pointing to the right. At the bottom of the page is the Harvard Catalyst logo.

- Use the link from the log in page to access the legacy web client. Do this to test workflow through the legacy system - including getting terms from the i2b2 ontology cell.
