

SHRINE 3.1.0 Chapter 14 - Verifying SHRINE Operation

After installing and configuring SHRINE, you can verify the installation by navigating to each application's login page and signing in.

- The SHRINE Webclient - the url should be in the form of https://your_shrine_url:6443/shrine-api/shrine-webclient/ . This will be the application you use most often. Log in, construct, and run a query. Do this to test that the term index files are correct, and to test out the full flow through the system.

The image shows the login page for 'The ACT Network'. At the top, there is a blue header with the 'ACT' logo on the left and the text 'The ACT Network' and 'Powered by the NCATS CTSA Program' on the right. The main content area is white and contains a 'Sign in' section. This section includes a 'Username' input field, a 'Password' input field, and a blue 'SIGN IN' button. Below the button, there is a link that says 'Switch to the [Legacy SHRINE Webclient](#)'.

- The SHRINE Data Steward - the url should be in the form of https://your_shrine_url:6443/shrine-api/shrine-steward/ . Log in as the data steward to observe what your researchers are doing.

The image shows the login page for 'SHRINE DATA STEWARD'. The header has a blue background with the text 'SHRINE DATA STEWARD' in white. Below the header, there is a light gray box containing the login form. The form has two input fields: 'Username*' and 'Password*'. Both fields have a small icon on the right side. To the right of the 'Username*' field, there is a label '*Required Field'. Below the input fields, there is a large gray arrow pointing to the right. At the bottom of the page, there is a dark gray footer with the 'HARVARD CATALYST' logo on the left.

- Use the link from the log in page to access the legacy web client. Do this to test workflow through the legacy system - including getting terms from the i2b2 ontology cell.
