

SHRINE 3.2.0 Upgrade Chapter 8 - Try the New Features

After installing and configuring SHRINE, you can verify the installation by navigating to each application's login page and signing in.

- **Clear the browser cache**
- Navigate to the SHRINE Webclient - the url should be in the form of https://your_shrine_url:6443/shrine-api/shrine-webclient/ . This will be the application you use most often. Log in, construct, and run a query. Do this to test that the term index files are correct, and to test out the full flow through the system.

The image shows a web browser window displaying the SHRINE Network sign-in page. The header is a dark blue bar with the SHRINE logo (three red circles) on the left and the text "The SHRINE Network" and "Powered by the NCATS CTSA Program" on the right. The main content area is white and contains a "Sign in" heading. Below the heading are two input fields: "Username" with a small "i" icon and "Password". Below these fields is a blue "SIGN IN" button.
